## MOISTURISING CARE FOR NORMAL AND COMBINATION SKIN

BASIC VISAGE – the intensive moisturising care for normal and combination skin. Swiss ORGANIC cucumber from the Bernese Lakeland delivers moisture to your skin and has a soothing, refreshing effect.

Pentavitin®, a plant-based moisture regulator, supplies the skin with long-lasting moisture, soothes dry skin, protects it from environmental impacts and reinforces the skin's own barrier function. Precious plant oils prevent premature skin ageing and regulate the balance of oils and moisture. The combination of natural ingredients nurtures your facial skin, leaving you with a radiant complexion and an even skin tone.
